

WHEN IT COMES TO WEB TRANSACTIONS, LEAVE THE HEAVY LIFTING TO US

TN Express Web (TNEW)

A SIMPLE, COST-EFFECTIVE SOLUTION FOR CONDUCTING BUSINESS ONLINE

TN Express Web (TNEW) is an e-commerce platform that manages all transactions on your organization's website. Each time a visitor begins down the purchase path - whether it is browsing upcoming events or researching education programs - TNEW takes the reins to handle the transaction, capturing sales and customer details. It is fully integrated with your Tessitura database so transactions, web content and event availability are updated in **real time**.

TNEW pages are skinned to match your branding, offering a seamless experience for visitors.

WHY TNEW?

We are responsible for keeping your website up-to-date with Tessitura capabilities and web industry best practices. This takes away burdening software development tasks and frees you up to focus on running your organization, creating cool things with the Tessitura API or providing content for the front end of your website.

TNEW is **affordable and quick to implement**.

TNEW offers **tight integration with TN Mobile Plus** so your content and features look great on mobile devices.

Need something **custom**? TNEW provides tailored options to handle upsells, add-ons and more. TNEW's flexible, pre-built platform can also integrate with custom-written code to create fully customized purchase paths within the TNEW shopping cart.
